

<rule>

§104.1 Requirement.

As a prerequisite to the biennial renewal of a dental or dental hygiene license, proof of completion of 24 hours of acceptable continuing education is required.

(1) Each licensee shall select and participate in the continuing education courses endorsed by the providers identified in §104.2 of this title (relating to Providers). A licensee, other than a licensee who resides outside of the United States, who is unable to meet education course requirements may request that alternative courses or procedures be approved by the Licensing Committee.

(A) Such requests must be in writing and submitted to and approved by the Licensing Committee prior to the expiration of the biennial period for which the alternative is being requested.

(B) A licensee must provide supporting documentation detailing the reason why the continuing education requirements set forth in this section cannot be met and must submit a proposal for alternative education procedures.

(C) Acceptable causes may include unanticipated financial or medical hardships or other extraordinary circumstances that are documented.

(D) A licensee who resides outside of the United States may, without prior approval of the Licensing Committee, complete all required hours of coursework by self-study.

(i) These self-study hours must be provided by those entities cited in §104.2 of this title (relating to Providers). Examples of self-study courses include correspondence courses, video courses, audio courses, and reading courses.

(ii) Upon being audited for continuing education compliance, a licensee who submits self-study hours under this subsection must be able to demonstrate residence outside of the United States for all periods of time for which self-study hours were submitted.

(E) Should a request to the Licensing Committee be denied, the licensee must complete the requirements of this section.

(2) Effective September 1, 2018, the following conditions and restrictions shall apply to coursework submitted for renewal purposes:

(A) At least 16 hours of coursework must be either technical or scientific as related to clinical care. The terms "technical" and "scientific" as applied to continuing education shall mean that courses have significant intellectual or practical content and are designed to directly enhance the practitioner's knowledge and skill in providing clinical care to the individual patient.

(A-1) Effective January 1, 2021, a licensed dentist whose practice includes direct patient care must complete not less than 2 hours of continuing education annually, and not less than 4 hours for each biennial renewal, regarding safe and effective pain management related to the prescription of opioids and other controlled substances. These 4 hours may be used to satisfy the 16-hour technical and scientific requirement. The courses taken to satisfy the safe and effective pain management requirement must include education regarding:

- (i) reasonable standards of care;
- (ii) the identification of drug-seeking behavior in patients; and
- (iii) effectively communicating with patients regarding the prescription of an opioid or other controlled substance.

(B) Up to 8 hours of coursework may be in risk-management courses. Acceptable "risk management" courses include courses in risk management, record-keeping, and ethics. Dentists may complete continuing education courses described by §111.1 of this title (relating to Additional Continuing Education Required) to satisfy a portion of the risk-management requirement.

(C) Up to 8 hours of coursework may be self-study. These self-study hours must be provided by those entities cited in §104.2 of this title (relating to Providers). Examples of self-study courses include correspondence courses, video courses, audio courses, and reading courses.

(D) Hours of coursework in the standards of the Occupational Safety and Health Administration (OSHA) annual update course or in cardiopulmonary resuscitation (CPR) basic life support training may not be considered in the 24-hour requirement.

(E) Hours of coursework in practice finance may not be considered in the 24-hour requirement.

(3) Each licensee shall complete the jurisprudence assessment every four (4) years. This requirement is in addition to the twenty-four (24) hours of continuing education required biennially for the renewal of a license.

(4) A licensee may carry forward continuing education hours earned prior to a renewal period which are in excess of the 24-hour requirement and such excess hours may be applied to subsequent years' requirements. Excess hours to be carried forward must have been earned in a classroom setting and within the one year immediately preceding the renewal period. A maximum of 24 total excess credit hours may be carried forward.

(5) Examiners for the Western Regional Examining Board (WREB) and for Central Regional Dental Testing Services Inc. (CRDTS) will be allowed credit for no more than 12 hours biennially, obtained from calibration and standardization exercises associated with the examinations.

(6) Any individual or entity may petition one of the providers listed in §104.2 of this title to offer continuing education.

(7) Providers cited in §104.2 of this title will approve individual courses and/or instructors.

(8) A consultant for the SBDE who is also a licensee of the SBDE is eligible to receive up to 12 hours of continuing education credit biennially to apply towards the biennial renewal continuing education requirement under this section.

(A) Continuing education credit hours shall be awarded for the issuance of an expert opinion based upon the review of SBDE cases and for providing assistance to the SBDE in the investigation and prosecution of cases involving violations of the Dental Practice Act and/or the Rules of the SBDE.

(B) The amount of continuing education credit hours to be granted for each consultant task performed shall be determined by the Executive Director, Division Director or manager that authorizes the consultant task to be performed. The award of continuing education credit shall be confirmed in writing and based upon a reasonable assessment of the time required to complete the task.
